

Appendix 2 Guidelines for applicants already holding the Blue Angel or Eco Mark

Blue Angel (RAL-UZ 171 (valid until 2017-12-31) or RAL-UZ 205)

If a product is approved under the Angel criteria (RAL-UZ 171 (valid until 2017-12-31), RAL-UZ 205 or later versions) it is easier to apply for a Nordic Swan Ecolabel licence.

If the product does not have a valid Blue Angel license, the product must fulfil the requirements in sections 2, 3, 4 and 5.

In this document, Nordic Ecolabelling have translated and changed the layout of the requirements from the original documents, Blue Angel criteria (RAL-UZ 171 (valid until 2017-12-31), RAL-UZ 205 or later versions). In case of any conflict the original always takes precedence. Each requirement contains a reference to the original requirement.

Supplementary documentation:

Some requirements are not harmonised and are found only in version 6.0 or later modifications of the Nordic Ecolabelling criteria document. These requirements are specific for the Nordic organisation of the company that applies for a license, including both product as well as regulatory requirements. See requirement R1, in section 1 of the criteria.

Eco Mark (Product Category No. 155)

If a product is approved under the Eco Mark (Product Category No. 155, or later versions) it is easier to apply for a Nordic Swan Ecolabel licence.

If the product does not have a valid Eco Mark license, the product must fulfil the requirements in sections 2, 3, 4 and 5.

In this document, Nordic Ecolabelling have translated and changed the layout of the requirements from the original documents, Eco Mark criteria (Product Category No. 155, or later versions). In case of any conflict the original always takes precedence. Each requirement contains a reference to the original requirement.
